AN ANGEL OF REVOLUTION-LIBERATION-ADVANCEMENT (PROGRESS)

SURENDRA MUDALI : A GREAT CONTRIVER

THOU ART UNPERISHBLE AND UNFADABLE.

THY DEEDS AND GREAT MEMOIRS ARE ETERNAL

At a time, At a stretch you are an advanced thinker, a dignified-progressive humane activist. An ocean of people hold you in high estimate as an educationist of the highest reach in the state of Odisha. You emphatically pronounced the concept of social justice and played a vital role for its implementation, rather you set-exemplary foot prints in this filed. The greatest aspect of your personality for your love empathy for the society where uncountable people lived in down most social strata, being victimised by the people of upper class those enriched with resources. This kept you over brooded the whole of your life till the last breath and to this effect your great and unsupressed intent to provide

education to deprived children and succesfully you initiated a project for them now functioning smoothly. In the midst of all affluence, your simplicity wrapped with broad-heartedness with conscience has made you a conspicuous portrate for ever. Among numerous social determinant charaity contradictions barriers of negativitism, you stood above all determined, cool and judicious. The decission brought you success at the destination. You had further miles and miles to go, but why you prefered a hidden place to live alone? It is known to none other than yourself. You lived not for yourself, but for other suffering mass-this we shall not forget and a picture you have dwawn at the fathomless depth of our heart. Nothing of the short will suffice to chant your determination, dedication and love you bore for the humanity. On the occasion of eleventh day. We pay deeply our homage to you and pray, may your soul rest in peace.

Keeping in view of the above said thinking he motivated his son Prof Sangram Mudali & family and his son-in-law Dr. Sukant Mohapatra & family (both working at that time in USA) to establish an engineering college at Odisha. His son Sangram appreciated and inspired with the idea of his father returned back from USA to Odisha along with his wife (Prof. Geetika Mudali) on a one way ticket to promote a technical institution at Odisha. Finally in the year 1996 NIST (National Institute of Science & Technology) was established at Pallur Hills, Berhampur, Ganjam. After some years later keeping in view more necessity of Engineering colleges in Odisha he started Apex Institute of Technology & Management at Pahala, Bhubaneswar, Khurdha in the year 2008. Both institutions have produced more than 15000 engineers and managers who are working all over the world bring name & fame to their alma mater and to Shri Surendra Mudali, the Founder.

Founder of DIGANTA- A School for Social Justice

Not satisfied with producing only technical manpower he thought of transforming villages –the epicenters of inequality, starvation and destitution. Transformation can be done by educating young minds and giving them professional education alongwith ethical values of social justice so that a new generation of leaders are born and with this aim was born DIGANTA. Diganta is a free residential School which was inaugurated on 13th July 2011 for SC/ST, tribal and other backward students of the society at Patrakana near Aling. Janabadi stands tall as the only weekly in Odisha completely focussed on bringing human rights and social justice issues before the people of Odisha.
